## A WORD FROM THE GAFFER

**Saturday 22 March 2022**

**We've made a very decent start to the season, and it's important we keep that momentum going into today's game against Ridgewood. Indeed, we have 3 league games in succession that will really test us, and if we take decent points from those games, starting today, we will be very well set a third of the season in.**

**Some of our attacking play so far has been scintillating, and in what I expect will be a tight title race, goal difference could be all important. So let's keep up the relentless pressure and appetite for goals whoever we play. Our strikers have been in good form and firing, and they have been given the freedom to attack by the solid shape we've had in midfield and across the back line. Let's keep that up. However, we must cut out the individual errors and not give cheap goals away - we are better than that.**

**The importance of a deep squad is already being brought into sharp focus. We have 10 players unavailable today, 6 of whom were in last week's squad! As I said at the start of the season, everyone will get their chance and when it comes take it!**

**Let's go.**
